

## NORTHERN TRIBUNE.

SATURDAY, JANUARY 7, 1882.

**THE House Committee on Elections** will, it is said, decide that neither Cannon nor Campbell are entitled to the Utah seat in Congress.

It is hinted in Washington that Mr. Howe may not remain long at the head of the Postoffice department. His health is poor, and his great trouble, asthma, is aggravated by the climate of Washington.

NEARLY 9,000 miles of railroad track were laid in the United States during the year 1881. This was by 258 different lines. The heaviest mileage was in Texas, 1,411. Michigan is ninth on the list, with 289½ miles. This is the best single year's record in the history of railroad building.

COL. SNOWDEN, Superintendent of the United States mint at Philadelphia, suggests a new plan for the coinage of small pieces, which includes among its features uniformity of alloy and of device, and due proportion in size and weight of the coins. His ideal alloy is 75 per cent. copper and 25 per cent. nickel.

S. P. ROUNDS, of Chicago, who is the principal rival of Mr. Turner, of Grand Rapids, for the position of Public Printer, in case Defrees has to go, is said to be confident of success. He writes to a friend in Washington that he is so sure of the place that he has ceased his efforts to obtain it and is now calmly waiting for it to be handed over to him.

THE Detroit Post and Tribune says Governor Jerome will not call a special session of the Legislature until after Congress has fixed the new congressional apportionment, and that his call will only embrace state matters, relating to the apportionment, the revision of the tax laws, relief of the fire sufferers, and some of the state institutions.

THE London financial journals are all predicting a drain of gold from America in the spring and a change in the balance of trade. Millions upon millions of American railroad securities have been sold in Europe, and the interest upon them, which must be paid in gold, will offset a large amount of the receipts from the exports of produce and breadstuffs, and unprecedented amount of imports will offset the balance.

THE public debt statement shows the decrease of the public debt during December, 1881, to be \$12,963,623; cash in treasury, \$253,377,980; gold certificates, \$5,180,120; silver certificates, \$68,675,230; certificates of deposit outstanding, \$9,590,000; refunding certificates, \$75,250; legal tenders outstanding, \$346,681,016; fractional currency, \$7,075,926; decrease since June 30th, 1881, \$95,107,095.

THE prominent Republicans and Independent Democrats of Georgia have held a conference looking to a union of forces against the Bourbons of that State. The probabilities are that a union will be formed of such a character as to sweep the state at the next election. The defeat of Virginia Bourbons has broken the backbone of Democracy in the South, and before the next Presidential election it will not be surprising to see that section almost solidly Republican. When the tide turns down there it runs swift and strong.

IN 1870 the territory of Dakota had a population of only 14,181 persons; in 1880 it had 135,177, and now its population exceeds 170,000. In 1880 Nebraska was a territory with a population of 28,841. In 1870 it was a state with 122,963 inhabitants, and in 1880 the number had increased to 452,402. Minnesota increased in population with equal rapidity and Kansas still more rapidly. Dakota is gaining in population as rapidly as any of the states mentioned, and by all precedents is entitled to admission as a state.

THE Detroit Post and Tribune of last Saturday, published its annual review of the breadstuff trade of that city for the year 1881, with other facts and figures of interest. The receipts and shipments of wheat show a large falling off in comparison with other years, owing mainly to the light crop of the year, but there was a considerable increase in the amount of corn, oats and barley handled, indicating a prosperous trade in those cereals. The receipts for the year were as follows: Flour, 447,909 barrels; wheat, 5,807,073 bushels; corn, 730,357 bushels; oats, 727,306 bushels; barley, 338,564 bushels. For the previous year the receipts were: Flour, 341,187 barrels; wheat, 9,938,960 bushels; corn, 427,976 bushels; oats, 507,426 bushels; barley, 290,809 bushels. Now that Detroit has become a near neighbor—only a few hours' ride—we are glad to note this evidence of her increasing prosperity.

## What They Lead To.

Kidney troubles and Liver troubles, unless checked in time by Dr. David Kennedy's "Favorite Remedy," will end in Constipation, Piles, Rheumatism, and Gravel. The latter are ailments of very serious character. "Favorite Remedy" acts upon the disordered Kidneys and Liver with quickness and certainty. It is Nature's own device for this purpose. Ask for it when you are next in the store, or write to the Doctor, at Rondout, N. Y.

Look at the list of crackers to select from at Beckers. Wafer, Shell Oyster, Family Boston, Pilot Bread, Cracknels, Pretzel, Milk, Tapioca, Graham, Oatmeal, Butter, Cream Sodas, Frosted Creams, Snaps, Menageria.

An improbable story is being circulated, that Captain Kidd's hidden treasure has been discovered. But the report that Cobb's Little Podophyllin Pill positively cures Indigestion, Nausea and Dizziness, is well founded, for its fact. Only 25 cents per bottle. Sold by Kenburg & Cooper.

## A PHYSICIAN'S ADVICE OF HOW TO GAIN HEALTH.

HARRISBURG, PA., March 30, 1881. Nothing is more charming and attractive than a thoroughly healthy, perfectly formed woman; a bright-eyed, rosy, laughing, joyous, happy faced girl, one who finds keen pleasure in merely living. An invalid wife or mother is a constant object of sympathy in anotherwise contented household. Happy the home whose women folks enjoy perfect health. In my practice I have always recommended sickly women to use Brown's Iron Bitters. In case of irregularities, dyspepsia, indigestion, heartburn, nausea, sour stomach, nervousness and exhaustive debility, find it exceeds all other remedies as a true medicinal tonic. It never fails to gently soothe, refresh and strengthen the general system, and especially those parts made weak by continued distress; and what satisfies me most is, that the cures, although in some instances gradual, are always permanent. M. D.

## Cuticura

THE CUTICURA TREATMENT, for the cure of skin, scalp and blood diseases, consists in the internal use of Cuticura Resolvent, the new blood purifier, and the external use of Cuticura and Cuticura Soap, the great skin cures.

## SALT RHEUM.

Will McDonald, 2542 Dearborn street, Chicago, gratefully acknowledges a cure of salt rheum on head, neck, arms and legs for seventeen years; not able to walk except on hands and knees for one year; not able to help himself for six years; tried hundreds of remedies; doctors pronounced his case hopeless; permanently cured by Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap (the great skin cures) externally.

## PSORIASIS.

H. E. Carpenter, Esq., tender on, N. Y., cured of Psoriasis, twenty years standing by the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap (the great skin cures) externally. The most wonderful case on record. Cure certified to before a Justice of the peace and prominent citizen. All afflicted with itching and scaly diseases should send to us for literature in full.

## SKIN DISEASE.

F. H. Drake, Esq., Detroit, Mich., suffers beyond all description from a skin disease which appeared on his nose, head and face, and nearly destroyed his eyes. The most careful doctoring failed to help him, and all had failed in using the Cuticura Resolvent (blood purifier) internally, and Cuticura and Cuticura Soap (the great skin cures) externally, and was cured, and has remained perfectly well to this day.

## SHIN HUMOR.

Mrs. E. Waple, Dearborn, Mich., writes that her face, head and some parts of her body were almost ruined. Head covered with scabs and sores, suffered fearfully and tried everything. Permanently cured by Cuticura Resolvent (blood purifier) and Cuticura and Cuticura Soap (the great skin cures).

Low prices and Long Time

The railroad is constructed and in operation from Jackson to Gaylord, a distance of two hundred and thirty-six miles, and will soon be completed to the straits of Mackinac, a further distance of about fifty-five miles. Particular attention is called to the large tracts of the best white and Norway pine timber along the line of the road, and upon the Ausable, Cheboygan, Muskegon and Manistee rivers, the most important logging streams in the state.

The farming lands of the company include some of the most fertile and well watered hardwood lands in the state. Special attention is called to the farming lands in Crawford, Otsego and Cheboygan counties, which are high and rolling; timbered mainly with the finest hard maple; soil, black sandy loam, and abounding in springs of the purest water. These counties are being rapidly settled, and the lumbering business in the vicinity will afford to farmers a first rate market for produce for many years.
